

ANAND UTILITIES PVT. LTD.

Your Industrial Growth Partner

ANAND UTILITIES PVT. LTD.

About Us

Anand Utilities Pvt Ltd is a renowned distributor of industrial equipment and spares. We focus on building a strong long-term relationship with our customers and aim to provide a broad range of innovative products and services to them.

Founded in 1993 and headquartered in the heart of the Jamshedpur, India, we cater to a number of large, medium and small industries in and around Eastern India. We have a branch office in Odisha as well.

With 32 years of industry experience, today, we are a dedicated team of skilled individuals with well-established operations and policies.

Anand Utilities Pvt Ltd. has won many prestigious awards for best practices and excelling at meeting targets and promoting sales from all our Principals.

Vision

Our vision is to bring the latest technologies, solutions and innovations to our customers for enhancing efficiency, reducing costs and optimizing resource use and manufacturing output.

At Anand Utilities, we believe in steady and continuous expansion and are always on the lookout to add new principal vendors and customers to our current basket.

We strive to collaborate with global leaders with high quality products and amalgamate it with our services and deliver it to our customer in the most transparent and ethical way using industry best practices.

Principal Vendors

We are authorized and exclusive Channel Partners of the following companies for specific regions.

All of the companies we represent are technology leaders in their respective domains and manufacture best quality products.

 LV & MV Switchgears, Automation & Power Technologies	 Electrical & Electronic Test Equipment	 High Voltage Transmission Solutions
 Sensor Intelligence. Sensors & Automation Solutions	 Connection, Protection, Supply & Automation	 Circuit Protection Products
 Filtration, Separations & Purification Solutions	 Water Treatment Filters	 Specialty Welding Consumables & Wear Plates
 Pneumatic Control & Automation Products	 Clamps and Grippers	 LV Panel Manufacturing MV Retrofit Services

ABB (Asea Brown Boveri) is a Swiss-Swedish Multinational Conglomerate pioneering in Electrical Equipment, Robotics & Automation

Low Voltage (LV) Products and Systems:

ACB: (Air Circuit Breakers rated up to 6300A)

MCCB: (Moulded Case Circuit Breakers XT Series rated up to 1600A)

(Moulded Case Circuit Breakers T Series rated from 320A to 3200A)

Modular DIN Rail Products:

MCB (Rated up to 63A, Braking Capacity up to 25KA, Config: 1P,1P+N,2P,3P,3P+N,4P)

RCCB (Rated up to 125A, Rated Sensitivity 10, 30mA, 100mA, 300mA, 500mA and 1A)

Surge Protection Devices

Contactors: (3 & 4 Pole Contactor AC/DC Electronic Coil from 9A up to 2850A AC1)

Overload Relay: (Thermal (up to 200A) and Electronic (up to 1250A))

MMS: (Manual Motor Starter with protection from 0.1A to 100A)

Universal Motor Controller: (Intelligent Motor Management for 1 & 3 Phase Motors)

Switches, Enclosed Switches, Power Supplies, Time Relays, Fusegear, Pilot Devices

Medium Voltage (MV) Products and Systems:

Modular solutions: (Compact Secondary Substations, GIS-Ring Main Units)

Circuit Breakers: (Indoor & Outdoor MV Circuit Breakers for Vacuum and SF6 Gas)

Control Products: (Air Insulated Switchgear & Gas Insulated Switchgear, Numerical, Electromechanical & Solid State Relays)

Retrofit Services: (For seamless Retrofitting of outdated MV breakers and GIS with new products)

MV Fuses

Outdoor Reclosers

PLC & Automation

PLC's: (Platform of Scalable range of PLC's)

Crane Automation: (Solutions for EOT Crane Automations)

Control Panels: (Control Panel Platform)

Drives

Crane Drives: (Drives for Crane Application with Software, Spares & Automation Support)

AC & DC Drives: (Drives for General Purpose Industrial Application)

Medium Voltage Drives: (Drives from 250kW to 100MW)

Drive Services: (Spares & Consumables, Maintenance, Retrofits)

FLUKE®

Fluke Corporation is the world leader in the manufacturing, distribution and service of Electrical & Electronic Test Tools and software.

Fluke Corporation, a subsidiary of Fortive (USA), was started in 1948 and has a pedigree of over 60 years of innovation.

Electrical Tools

Basic Testers: (Fluke T5, T+PRO, T+ Electrical Tester, Safety CATIII & CATIV)

Clamp Meters: (Current Range Max up to 2500A AC/ 2000A DC, Safety CATIII & CATIV)

Digital Multimeters: (Multimeters with Limited Lifetime Warranty, Safety CATIII & CATIV)

Earth Ground Testers: (Fluke 1625-2 Advanced & Fluke 1623-2 Basic Geo Earth ground Tester)

Insulation Testers: (Insulation Tester for 1KV- Fluke 150, 5KV- Fluke 1550C & 10KV- Fluke 1555)

Power Quality Tools: (PQ Analyzers with Measurements & Advanced Harmonics Study)

Power Loggers: (Power Quality Recorders and Three Phase Power Loggers)

Portable Oscilloscope: (Handheld Battery Powered Oscilloscopes for Industrial Applications)

Calibration Tools

Electrical Calibrators, RF Calibrators, Multifunction Calibrators, Pressure Calibrators, Temperature Calibrators, Humidity Calibrators, Process Calibration Tools, Flow Calibrators, Calibration Software, Master Calibrators and Bench Instruments

Compressed Air Leakage Detection

FLUKE ii900 Sonic Industrial Imager

Thermal Imaging & Temperature Measurement

Thermal Imagers (Fluke Ti450 Thermal Imager)

Contact & IR Thermometers (Fluke 59 Max, Fluke 62 Max, Fluke 62 Max+)

IR Windows

Mechanical Maintenance

Laser Alignment (Fluke 830 Laser Shaft Alignment Tool)

Vibration Analysis (Fluke 810 Vibration Tester & Fluke 805 Vibration Meter)

High Voltage Switchgears and Breakers

Grid Automation Products

Disconnectors, Capacitors, Filters

SICK

Sensor Intelligence.

Founded in 1946 at Germany, SICK is a worldwide leader in Sensors. As a Technology and Market Leader, SICK provides Sensors for a wide range of applications.

Automation light grids
Proximity sensors
Detection and Ranging Solutions (LiDAR)
Distance Sensors
Encoders Analyzer Solutions
Dust Measuring Devices & Analysers
Safety Switches

Fluid Sensors
Gas Analysers
Machine Vision
Photoelectric Sensors
Fibre Optic Sensors
Identification Solutions
Systems & Solutions

Bussmann®

Bussmann, a part of EATON Group, has a history of more than 90 years of innovation and sets the standard for circuit protection in the global market and is a leading manufacturer of Electrical and Electronic Fuses for a wide range of industrial applications.

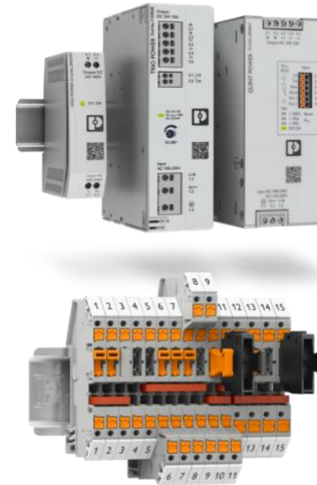

HRC Fuses
Low Voltage Fuses
Medium Voltage Fuses
Electronic Fuses
Semiconductor Fuses
High Speed Fuses
Arc Flash relays

Founded in 1923 at Germany, Phoenix Contact is a global leader in industrial automation and electrical connection technology, offering innovative solutions for connectivity, control, and automation. Their products range from terminal blocks and connectors to advanced industrial IoT and control systems.

- Industrial Cabinet Connectivity
- Industrial Field Connectivity
- Interface Components
- Power Supply
- System Protection Technologies
- Automation
- Field Device Connectors
- Terminal Blocks
- Device Connector Solutions

Pall Corporation is a global leader in high-tech filtration, separation and purification, providing solutions to meet critical fluid management needs of a broad spectrum of life sciences and industrial customers.

Pall Corporation was established in 1946 at New York (USA) and is today a subsidiary of Danaher Corporation.

Elements

Hydraulic Oil & Lubrication Oil Filters

Athalon Filters with Beta Ratio >2000, stress resistant and full range of Housings
Coralon Filters with Beta Ratio >1000, stress resistant and full range of Housings

Amiad Water Systems is a world leader in water treatment and filtration solutions and for 60 years has devoted its passion and commitment to developing a comprehensive line of water filtration systems for applications in the irrigation and industrial markets.. With our screen, disc, microfiber and media technologies and broad range of automatic, semi-automatic and manual filters, we are able to effectively treat and filter water according to each customer's specific requirements.

Products:

- Automatic Filters (Screen, Disc, Media, Microfiber)
- Semi-Automatic Filters (Screen)
- Manual Filters (Screen, Disc)
- Sand Separators etc.

Applications in Industry:

- a) Intake Water
- b) Cooling Water
- c) Process Water
- d) Wastewater
- e) Reclaim/Reuse
- f) Drinking Water
- g) Sea Water

ESAB is a Swedish Welding Company established in 1904 and is currently a part of Colfax Corporation, USA.

ESAB is a world leader in the production of welding equipment, cutting equipment and consumables. The ESAB brand is synonymous with welding.

Welding Consumables & Wear Plates:

Covered Electrodes (SMAW): Low Alloy, Mild Steel, Low Hydrogen, Stainless Steel, Nickel Alloy and Hard facing Electrode, TIG Rods, MIG Wires, Submerged Arc Wires

Wear Plates – Custom Designed as per User Specifications

FESTO

FESTO, established at Germany in 1925, is a worldwide leader in automation technology.

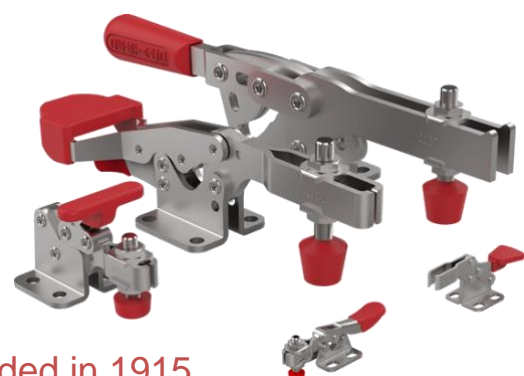

FESTO has over 60 years of pedigree in delivering Pneumatic and Electric Drive solutions for factory and process automation

- Pneumatic drives/cylinders
- Servo-pneumatic positioning systems
- Electromechanical Drives
- Motors & Controllers
- Grippers
- Handling Systems
- Vacuum technology
- Pneumatic Valves
- Pneumatic Valve terminals
- Motion terminal
- Sensors
- Image processing systems
- Compressed air preparation
- Pneumatic Fittings and Tubing
- Control Technology
- Process Automation

DESTACO, a DOVER company, was founded in 1915. Today, DESTACO is the industry's leading global supplier of high-performance automation, Workholding and containment solutions

- Pneumatic Clamps, Manual Clamps, Hydraulic Clamps
- Grippers, Sheet Metal Gripper, Bag Grippers
- Linear Positioners, Rotary Positioners, Robotic tooling

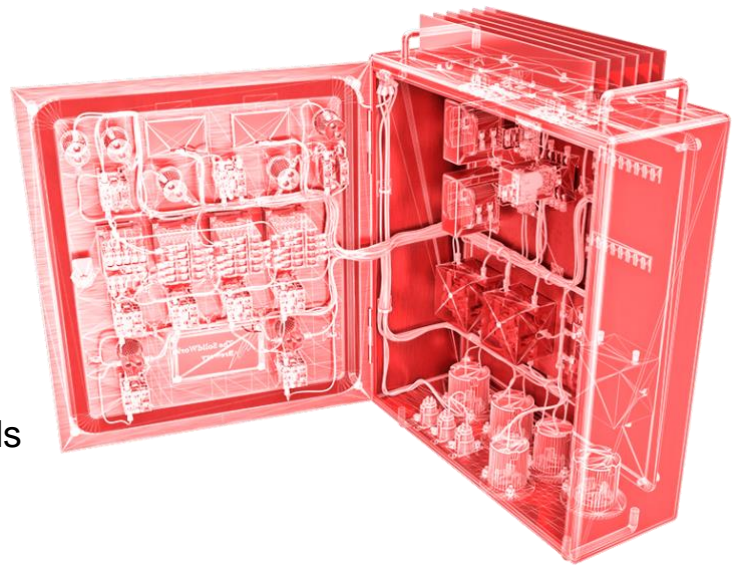

LV Panel Manufacturing

We are manufacturing Low Voltage Electrical Panels (415V) at Jamshedpur for a variety of Industrial Applications using world class products from ABB and other OEM's. We have a highly skilled technical team with in-house Design, Testing and QC Facilities which helps us to deliver high quality and cost effective solutions. Some of the solutions manufactured by us are in IP54 & IP65 ratings are :

- Motor Control Centre
- Power Control Centre
- Power & Motor Control Centre
- Power Distribution Board
- Relay Control Panel
- Control Desk
- Distribution Box
- Junction Board
- Feeder Pillar
- Capacitor Panels/ APFC Panels
- Drive Panels

Completed Projects

- Jusco Housing for Tata Steel KPO - Complete Panel requirements
- Tata Steel General Office - Electrification System Panels
- Timken Expansion Project - Electrification System Panels
- And Many More.

Medium Voltage Retrofit Services

We are providing Retrofit Services for Medium Voltage Switchgear up to 33KV, wherein we are replacing old and obsolete versions of MV Breakers/Switchgear with upgraded models, on a Turnkey basis entailing all the processes from design, execution to commissioning.

We have a highly skilled and experienced team handling the operations for these services. We have over the last 25 years done more than 500+ Retrofits for MV Switchgear.

Customer Profile

Of the **600+** customers, listed below are some of our prestigious clients:

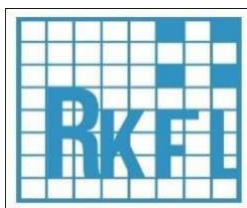

Tata Steel Jamshedpur (TSJ)
Tata Steel Kalinganagar (TSK)
Tata Steel Meramandali (TSM)
Tata Steel Gamharia (TSG)
Tata Steel UISL (JUSCO)- Jamshedpur
Tata Steel - All Locations in India

TATA HITACHI

Reliable solutions

& SSI'S OF ADITYAPUR INDUSTRIAL AREA
